Subject: Compliance Assurance Notification - DE Inspections

Greetings,

This is a compliance assurance notification of rescheduled inspections at two Delaware locations. We originally notified and coordinated with DNREC on these inspections to occur in December 2021, but they have had to be rescheduled several times. The new date is March 31st. These are a result of complaints submitted by a DE resident.

Let us know if you have any questions.

Rick

Subject: Compliance Assurance

Notification: NPDES Inspection

Sites/Facilities

and Locations: Inland Bays Waste Water Treatment Plant, 29445 Inland Bay Road, Millsboro, Delaware 19966

RB Hauling Lawson Road, Millsboro, DE

ECAD Point of

Contact: Chuck Schadel – x5761; Pete Gold – x5236

Proposed Action: NPDES Inspection

Basis for Action: There have been numerous complaints received by an individual in the area regarding potential disposal of liquids via spray irrigation or discharges to the ground at the two facilities identified above. On March 31, 2022, EPA will be leading a storm water inspection of the Lawson Road property and accompanying the state on their stormwater inspection of the Inland Bays WWTP. The state has been informed of these inspections and has received the same complaints. EPA has coordinated the inspections with the Delaware Department of Natural Resources and Environmental Control (DNREC).
